

Medical

6027 Series

Engineering Information:

- NTC thermistor assembly
- Available in a variety of sizes
- Designed for harsh environments
- Rivet design is ideal for overmolding
- Housing material options: stainless steel, anodized aluminum

Applications:

- Cosmetic and aesthetic laser equipment
- Medical instrumentation

Series Information:

QTI's 6027 Series features a rivet style thermistor probe that is made to withstand environments in the medical industry. The rivet measures surface temperature and can be placed into a variety of housings or installed to contour to the surface to better support your application.

QTI can customize these sensors in a variety of ways. Sensor resistance values and accuracy, as well as cable length and color are all able to be specified.

QTI is the unparalleled leader in world-class temperature sensing technology with over for 40 years of proven expertise for the most demanding customers in the world. We custom-engineer the industry's most reliable temperature sensors for mission-critical applications. As a true business partner, we deliver beyond the products we make as we relentlessly pursue excellence in everything we do.

Contact us to discuss your temperature sensing needs today.
